To Whom It May Concern,

RE: Thermoset Roofing Corp.

Dear Gentlemen,

Please be advised that Thermoset Roofing Corp., is bonded by United States Fire Insurance Company. We have bonded the principal for the past fifteen years. We consider the principal to be a valued and respected contractor who has completed all of their projects in a timely and professional manner. Currently Thermoset Roofing Corp., has a \$15,000,000.00 single bond guideline and a \$20,000,000.00 aggregate.

We do not anticipate a problem providing bonds for the principal subject to our receipt and review of a written contract and the bond terms. The request must come from our client and be accompanied by our normal underwriting information. We reserve our right to base our decision on the facts present at the time of the bond request.

Our association with Thermoset Roofing Corp., has been extremely favorable and we are confident that you will find them to be highly qualified and responsive to your needs. If you have any questions please call.

Sincerely,

Robert Barra  
Attorney In Fact  
United States Fire Insurance Company
